SKILLS

- **Languages:** C++, JavaScript, C, Python, Java.
- **Frameworks:** HTML and CSS, NodeJS, React, Junit, JMeter, Jenkins, Postman.
- **Tools/Platforms:** MySQL, MongoDB, JIRA.
- **Soft Skills:** Problem-Solving, Team Player, Leadership, Adaptability, Critical Thinking.

INTERNSHIP

Techvanto Academy- Java Programming

Jun' 25 - Aug' 25

- Developed advanced Java modules, utilizing multithreading, collections, JDBC, and exception handling for efficient code solutions.
- Gained practical experience in Java application development, emphasizing object-oriented design and architecture.
- Focused on file handling techniques to enhance the performance and scalability of applications.
- Strengthening application scalability and data processing by implementing robust file handling mechanisms for large datasets, enabling faster I/O operations and seamless data persistence

PROJECTS

Red Cross Society, Tripura State Branch Website | [GitHub](#)

Dec' 25

- Designed and developed a full-stack web platform for the Red Cross Society Tripura State Branch to manage organizational information, activities, and user engagement using the MERN stack.
- Performed functional and API testing on forms, authentication, content updates, and backend services to ensure accurate data flow and system reliability.
- Executed UI, regression, and cross-browser testing, identifying defects and improving performance, responsiveness, and usability.
- Tech Stack: MERN, JMeter, Junit.

PhysVerse, Physics Application | [GitHub](#)

Nov' 25

- Designed and developed an interactive web platform that enables users to learn, visualize, and experiment with physics concepts through simulations using React and Typescript.
- Conducted functional testing of simulations, UI workflows, and user interactions to ensure accurate results and smooth navigation.
- Verified frontend logic, state management, and data rendering to prevent calculation errors and UI inconsistencies and implemented unit and integration testing to ensure component stability, application reliability, and consistent performance across devices.
- Tech Stack: React, TypeScript, Junit.

Automated Bank Management System | [GitHub](#)

Jul' 25

- Created an automated end-to-end Bank Management System using Java Swing, JDBC, and MySQL for seamless account operations.
- Supports account creation, login, deposit, withdrawal, balance check, transaction history, and account closure with GUI-based interaction.
- Implemented secure database connectivity, validation, batch insertion, exception handling, and SQL-driven data retrieval for reliability.
- Successfully achieved 100% functional coverage, reduced manual workload by 80%, and executed 50+ automated banking operations without failure.
- Tech Stack: Java Swing, JDBC, MySQL, OOPs, Exception Handling.

CERTIFICATES

- Mastering Rest AP Automation | The Test Tribe | [Certificate](#) Jan' 26
- API Test Automation with SOAP UI | LinkedIn Learning | [Certificate](#) Jan' 26
- Foundations Of Virtual Reality | IIT Madras | [Certificate](#) Nov' 25
- Chatgpt 4 Prompt Engineering | Infosys Springboard | [Certificate](#) Aug' 25

EXTRA-CURRICULAR ACTIVITIES

National Youth Festival 2025 Representative:

- Selected from a pool of over 30 lakh candidates across India to represent the state of Tripura at the National Youth Festival 2025, presenting ideas for "Tech for Viksit Bharat 2047", before national leaders, policymakers, and the Hon'ble Prime Minister. Received a certificate of recognition from the Union Minister of Youth Affairs, Shri Mansukh Mandaviya.

National Space Day 2025 - National Quiz Winner:

- National Quiz Winner, emerged as one of the top 100 winners in India, and participated in the National Space Day Quiz organized by the Government of India. Received an invitation for a field visit to the Indian Space Research Organization (ISRO) at Sriharikota, Chennai.

President of ConverseE+ Club:

- Serving as the President of the ConverseE+ Club at LPU, leading and coordinating student-driven teams to foster a collaborative environment. Managing multiple student events, ensuring structured planning, and providing mentorship.

CPE Multi-Event Achievement Recipient:

- Recognized as a multi-event winner in various competitive activities organized by CPE, LPU, including debates, quizzes, vocabulary contests, and aptitude-based evaluations, demonstrating strong analytical, communication, and critical reasoning skills.

Technical Workshops — Techkriti 2025, IIT Kanpur:

- Attended multiple high-impact technical workshops at Techkriti 2025, IIT Kanpur, gaining hands-on exposure to emerging technologies, real-world engineering problem-solving, and innovation-focused project development.

Technology & Innovation Workshop — IIT Delhi:

- Participated in an advanced technology workshop at IIT Delhi, focusing on cutting-edge research discussions, industry-oriented technical modules, and interactive lab activities.

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering: CGPA: 9.1	Phagwara, Punjab Aug' 23 - Present
Hindi Higher Secondary School Intermediate: Percentage: 93.6	Agartala, Tripura Apr' 20 - Mar' 22
Holy Cross School Matriculation: Percentage: 96	Agartala, Tripura Jan' 19 - Mar' 20
